Buckwheat porridge with fresh fruits

INSTRUCTIONS

1. Soak the dry buckwheat groats and cashews in double volume of water for at least 6 hours or overnight at room temperature. Soaking increases the availability of nutrients, softens the groats and nuts and makes them easier to digest.
2. Rinse well the buckwheat groats and cashews under running water until the water is clear and drain.
3. Peel and chop the banana, pit and roughly chop the date.
4. Add all the ingredients in a food processor or a high speed blender and blend until perfectly smooth, thick and creamy. If you prefer a runnier porridge, add a little more coconut milk and blend until you get the desired consistency. Set aside.
5. Decorate the porridge with selected fruits and sprinkle them with cocoa. Ready for serving.

INGREDIENTS

Buckwheat porridge

- 3/4 cup raw buckwheat groats
- 1/3 cup raw cashews
- 1/2 banana
- 3 tbsp coconut cream or milk
- 1 pitted date, to sweetened (add more if you prefer)
- 1/2 tsp vanilla extract
- 1/2 tsp ground cinnamon
- 1 pinch of sea salt

Fruits - toppings

- Blueberries
- Strawberries
- Raspberries
- 1 tsp cocoa

Easy, nutritious and delicious!

Idea for the recipe from:
